Loser, by Jerry Spinelli:
A Book Club Packet
Created by Jean Martin (jeanmartin@aol.com)

This 12 page packet of materials was created to use with students in grades 3-6 who are reading the novel, Loser, by Jerry Spinelli. Included is a 18 page student booklet designed for independent work to reinforce essential reading, writing, and thinking skills. In addition, an answer key is included for use by teacher or aide.

The student booklet divides Loser into five reading assignments of about 40 pages each. Each assignment has about 3 pages of activities to go with it. Skills addressed in the activities include summarizing, visualizing, determining author's purpose, inferring, comprehension, explaining, recognizing character traits, using context, recognizing point-of-view, and defining vocabulary.

In my classroom, students were responsible for completing one reading assignment with the accompanying questions/activities each week. They would be given 10-15 or 20-40 minute periods per week to complete one assignment. Typically I would be working with another book group while they were independently working on their assignment. They would then meet once a week with me (or an aide or a parent), along with the other students reading the same book (we called this a "bookclub" meeting) to discuss the book and the assignments.

Customize the use of this packet as you wish. What worked for me, may not be what works best for you. For example, instead of using this as class work, the packet could also be used as homework. Also, instead of creating a booklet, the pages can be copied and handed out singly as separate assignments.

Loser is a nutshell

Written by Newbery Award-winning author, Jerry Spinelli, this book introduces us to the world of Donald Zinkoff. Donald is a kind and charming boy who has always been the best of his own group. In his enthusiasm for life and for learning he is sometimes too busy to notice that he is the target of jokes and teasing, or other times he becomes painfully aware. But in the end, he shows that he has what it takes to be a hero. Everyone who reads this book is bound to be moved by Zinkoff!

Appropriate for students in grades 3-6. Reading level approximately 4th grade

The stage is ready for the drama. All this does not diminish his fear of his tenth birthday. Although Palmer is actually reluctant to participate in squeezing Pigeon Day, he does not express it out of fear of being ostracized. One of Palmer's friends, Beans, is at the shooting, and brings the pigeon back to the field to be killed by the sniper. When a pigeon arrives at Palmer's window, he secretly takes the bird as a pet and calls it Nipper. Dorothy reveals that she released Nipper near the railroad tracks, unaware that people catch pigeons at that exact spot to release them for the shooting. When the day of the shooting arrives, Palmer is anxious because © allowed Dorothy to release Nipper in the hope that the pigeon avoids capture. He and his friend Dorothy Gruzik avoid shooting pigeons, sometimes playing on swings far from the shooting range and sometimes staying away from the park that day. When the book opens, the 63rd Pigeon Day of the city aims to raise funds for the city's playground. In its city, Family Fest is an annual fundraiser that ends with an annual pigeon shooting, when participants kill five thousand live pigeons. In a review of Wringer's School Library Journal, Tim Rausch cited the novel for "Humor, suspense, a bird with a personality and a moral dilemma familiar to all", characters who are "memorable, convincing, lovable and evil", and a "compelling plot". Suzanne Manczuk, writing in Voice of Youth Advocates, commented that "Spinelli has given us mythical heroes before, but no one more human or vulnerable than Palmer." Critic Benjamin Cheever of the New York Times Book Review also received great praise for Wringer, describing the novel as "both less ancient and more deeply felt" by Maniac Magee, and adding that Spinelli presents Palmer's moral dilemma "with great care and sensitivity". How can Palmer save his friend? When pigeons are released, nipper is wounded.
